Guru Nanak College

2015 - 2018

CAREER OBJECTIVE

Dedicated and seasoned Senior Frontend Developer with over 5 years of hands- on experience in architecting and implementing cutting-edge web applications. Adept at translating complex business requirements into scalable and efficient frontend solutions, I thrive on pushing the boundaries of what is possible in web development.

WORK EXPERIENCE

Developer

Transunion   September 2022 - Present

- Developing UI components in Adobe Experience Manager (AEM) and leveraging in international business sites.
- Developed a web scraping tool using React, Node.js and Puppeteer as a node dependency.
- Evaluated and implemented cutting-edge technologies and tools, such as Next.js and GraphQL, to enhance the development workflow and stay ahead of industry trends.
- Collaborated directly with product owners to understand project requirements, gather feedback, and ensure the successful alignment of technical solutions with business goals.

Senior UI Developer

RR Donnelley   June 2021 - September 2022

- Develop microsites using Gatsby JS and create content model in Contentful and wordpress as data endpoint.
- Create interactive websites using libraries such as GSAP and Lottie JS.
- Established and enforced coding standards, best practices, and code review processes, resulting in a 15% reduction in bugs and improved code maintainability.
- Designed and implemented a comprehensive employee timesheet tracker using Google Apps Script and Google Sheets.

UI Developer

RR Donnelley   March 2019 - February 2022

- Created and maintained the front-end websites using JavaScript, HTML, and CSS.
- Building stable and reusable codebases, expanding features and improve process.
- Test front-end code in multiple browsers to ensure cross-browser compatibility
- Maintained active conversation with the client to ensure the site met their needs
